Active Shooter Training drill held

On Friday, Aug. 23, Thomas Edison EnergySmart Charter School (TEECS) in the Somerset section of Franklin Township was utilized by the Somerset County S.W.A.T Team and Negotiators as well as the Somerset County Office of Emergency Management (OEM) for their monthly Active Shooter Training drill. The purpose of this Active Shooter Drill was to set forth procedures to be used by the Somerset County Prosecutor's Office in the handling of active shooter situations as well as to familiarize themselves with the layout of the school. These drills help to develop tactics which are swift, decisive and organized so that these incidents may be resolved with maximum safety and as rapidly as possible, neutralizing the active threat to students. All of TEECS' staff participated in the drill.
